JOIN THE PARTY!

In the Fall, we'll start the year off by discussing some of the most pressing issues we face as a nation. Within small groups made up of delegates from our local community and beyond, we will work together to identify new and innovative solutions for some of our country's common political issues. We will have local guest speakers from our community to further discuss ideas of influential and political action. In a fast pace and accelerated virtual conference, you'll be competing for funding and taking the first step in creating real change in our society.
